Course Description:

In this class, students will utilize technology to explore different cultures and languages. This exploration will enable students to better identify with a global community and build global citizenship skills. Students will use technology as a tool to engage in language learning, analysis of cultural practices and products, and discovery of perspectives of various countries. This course will introduce Spanish, French, Chinese, Latin, or German with fundamental building blocks in four key areas of foreign language study: listening comprehension, speaking, reading, and writing. Students will improve their digital literacy skills while increasing their awareness of digital and global citizenship concepts.

Grading Policy:

Students will receive grades for various coursework. This coursework may include projects, quizzes, participation, and daily assignments. Grade calculation will be based on total points earned. Assignments must be submitted in a timely manner.
